THANYA CHEVEZ

FRONTEND DEVELOPER

Nashua, NH | (603) 438-3514 | chevezt@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with hands-on internship experience building and deploying responsive web applications with React, JavaScript, REST APIs, Bootstrap, CSS, and Vercel. Experienced in integrating AI-powered image analysis, browser camera access, authentication, and interactive user workflows. Licensed insurance professional with customer-facing, sales, digital marketing, and e-commerce experience, bringing strong communication, problem-solving, and business perspective to software teams.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React, Next.js, Bootstrap, Tailwind CSS, Redux, React Query, React Hook Form, Zustand, responsive design

Backend / Data: Node.js, REST APIs, Firebase, Supabase

Tools / Testing: Git, GitHub, Vercel, Netlify, Vite, VS Code, Jest, React Testing Library, Figma, Stripe

FRONTEND ENGINEERING EXPERIENCE

Skinstric AI - Frontend Engineer Intern (Paid Internship) | Remote | Sep 2024 - Apr 2025

- Built and deployed an AI-powered facial analysis web application using React, Bootstrap, CSS, REST API integration, and Vercel.
- Implemented image workflows that let users upload a photo or grant browser camera access, then submit images for AI-based age, gender, and ethnicity analysis.
- Integrated API responses into interactive React interfaces, managing application state, user interactions, loading states, errors, and analysis results.
- Developed the frontend independently from project requirements and deployed the production application to Vercel.

Frontend Simplified - Full Stack Engineering Program & Peer Mentor | Remote | 2024

- Completed hands-on frontend/full-stack training while building projects with JavaScript, React, TypeScript, Next.js, APIs, Git, and modern deployment workflows.
- Supported peers with debugging, code reviews, React concepts, component architecture, accessibility, SEO, and deployment; participated in pair programming and study sessions.

SELECTED PROJECTS

SnapCast - Full-Stack Screen Recording & Video Sharing Platform

Live Demo | GitHub

- Built a web application for desktop/browser screen capture, Google authentication, video uploads, sharing, and AI-powered transcripts for searchable, accessible video content.

Ultraverse - Dynamic React Website Modernization

Live Demo | GitHub

- Transformed a static interface into a dynamic React application with Axios-powered API content, interactive carousels, scroll animations, and Git/GitHub branching and pull-request workflows.

ADDITIONAL PROFESSIONAL EXPERIENCE

State Farm Agency - Licensed Insurance Professional | New Hampshire | Jan 2026 - Present

- Prepare property and casualty insurance quotes, support policy and customer workflows, and assist with day-to-day agency operations and administrative processes.
- Apply Property & Casualty and Life insurance licensing knowledge while collaborating closely with the agency owner on client needs and office operations.

EDUCATION & CREDENTIALS

Full Stack Engineering Institute / Frontend Simplified - Full Stack Engineering Training, 2024

Google Digital Marketing & E-Commerce - Certificate, 2023

Licenses: Property & Casualty Insurance; Life Insurance
